2.- Scope of Application

These General Terms and Conditions shall necessarily be applicable to all of the contracts that the Calvo Group (hereinafter, "CALVO") formalises for the sale of tuna, both processed and unprocessed tuna and/or other fish products when stipulated in the corresponding Sale Confirmation.

These General Terms and Conditions are available at the following URL:<https://www.grupocalvo.com/wp-content/uploads/2021/10/calvo-cg-ventas-atu%CC%81n-publicadas-web-english.pdf>.

3.- Sale Confirmation

It may not be interpreted that any Purchase Agreement has been formalised between CALVO and the Purchaser unless a Sale Confirmation exists that has been signed by the legal representatives of the Purchaser and the Vendor.

After the execution of a Sale Confirmation by both parties, a Purchase Agreement (national or international, as the case may be) shall be deemed to have been formalised between the Purchaser and the Vendor, that must strictly comply with the terms and conditions thereof.

The negotiations and documents exchanged between the parties prior to the execution of the Sale Confirmation shall be overridden and revoked by the Sale Confirmation, and none of the terms thereof shall be binding upon the parties, without prejudice to the possible use thereof for interpretative purposes.

These General Terms and Conditions shall be deemed to be incorporated into all of the Sale Confirmations formalised between CALVO and the Purchaser and accordingly shall form an integral part of the Purchase Agreement through the Sale Confirmation.

In the case of any contradiction between the Sale Confirmation and these General Terms and Conditions, the terms of the Sale Confirmation shall prevail.

4.- Products

The quantity, description and specifications of the Products sold by CALVO shall be set out in the Sale Confirmation.

5.- Quantity

The quantity of products that the Vendor must deliver to the Purchaser must be that which is set out in the Sale Confirmation, unless the Purchase Confirmation contains the expression "approximate quantity", in which case, the quantity purchased is subject to a tolerance margin of three per cent (3%) of the quantity set out in the Sale Confirmation.

The calculation of the Quantity shall be based upon the weight of the products established at the place or at the port of shipment, of the place or port of receipt or at the destination of the products, as set out in the Sale Confirmation, on a case by case basis. The quantity shall be established by means of the use of a weight scale or other calibrated weight measurement device. Said Quantity shall constitute the definitive Quantity in the absence of fraudulent practices or any manifest error.

If a discrepancy of more than three per cent (3%) exists between the Quantity established in the Sale Confirmation and the stated weight, the difference, at the election of CALVO, shall be off-set by the next purchase operation between CALVO and the Purchaser or alternatively shall be adjusted at the conclusion of the operation, and in both situations, the selected option shall be confirmed by way of e-mail within the maximum period of five (5) business days following the conclusion of the operation.

The amount to be paid by the Vendor or to be paid by the Purchaser in the case of discrepancies which exceed three per cent (3%) must be paid by means of bank transfer into the current account that, as the case may be, has been designated by the Vendor or the Purchaser, at least within the period of another five (5) business days as from the conclusion of the operation, against the presentation of the corresponding credit note or additional invoice.

In any event, CALVO hereby warrants to the Purchaser that the Products subject of the sale are:

- (a) safe and suitable for human consumption, unless the Sale Confirmation exceptionally states that the product is not for human consumption (for example, in the case of purchases for fishmeal or products for consumption by animals). Under no circumstances shall it be deemed that the Products are for non-human consumption unless specifically stipulated in writing in the Sale Confirmation.
- (b) In the case of unprocessed products, that the products shall be suitable for the manufacture of fish conserves in accordance with the applicable Spanish or international regulations and the Codex Alimentarius of the FAO (<http://www.codexalimentarius.org/>) and that the products are free from any defect or deficiency.
- (c) The products must comply with the national regulations applicable in the country of the Purchaser and are able to successfully pass any health or food safety inspection or test in the country of the Purchaser (unless the Sale Confirmation states a different destination country, in which case said requirements for said country must be complied with), or any customs inspection, and must comply with the instructions, rules and regulations of the country or place of importation.
- (d) Furthermore, in the case that the Sale Confirmation stipulates that the Products shall be suitable for a specific purpose, the Vendor must supply said products in order that they are suitable for said purposes.

7.- Inspection

a.- The Purchaser shall be entitled to send its own inspectors or independent inspectors to the factory of CALVO or to the place of processing, storage and/or delivery of the products in order to verify and supervise the processing, manufacture, storage, shipping and the delivery of the products, as well as to take samples thereof during any of the foregoing phases, as well as during the unloading and transfer of the products. CALVO must provide said inspectors with all of the necessary assistance for the performance of their functions. c.- CALVO shall be entitled to send its own inspectors or independent inspectors to the factory of the Purchaser or to the place of the processing of the products in order to assist with the verification of the Quantity and Quality carried out by the Purchaser at the destination of the products. The Purchaser must provide said inspectors with all of the necessary assistance for the performance of their functions. In turn, the inspectors of the Vendor must adhere to the rules regarding occupational hazards and health and safety in the workplace, warehouses or ports the subject of the inspection visit thereof.

d.- Without prejudice to the foregoing, in the case of any breach of quality requirements or legislation attributable to CALVO, CALVO shall only be held liable vis-à-vis the Purchaser for any losses or damages, claim, costs, expenses, payments, fines or any other financial detriment the result of or related to any withdrawal, confiscation or destruction of the products or of any punitive action imposed by any government (including any action relation to food safety) or of the public authorities at any port or place where the products may be delivered, loaded, processed, sold, re-sold or consumed that are the result of quality defects of the products, however necessarily limited to the direct losses and damages (and not any consequential or indirect losses or damages, such as consequential economic loss, or loss of opportunity or profits of potential or real operations with any third party whatsoever). The Vendor shall also be responsible for any damages or death caused by the consumption of the products.

e.- In the case of any discrepancy between the parties regarding the quality of the products determined at origin or at the destination thereof, the parties shall submit said discrepancy to the analysis of an independent expert, that shall be administered by SGS (Société Générale de Surveillance) at the place of delivery of the products and/or at the destination thereof, as applicable. Said analysis shall be definitive and binding for both parties, except in the case of any manifest error or fraudulent practices. The costs of the activities of the independent expert and of the report thereof shall be paid for by the party whose position has been refuted by the expert's report. In the case that the report refutes the position of both parties, the costs shall be shared between them equally.

f.- The parties must notify the other party in writing (including by way of e-mail) as to whether they exercise or not their right to appoint an inspector or inspectors at least five (5) business days prior to the date on which the inspection is to take place.

g.- If, with or without the involvement of the inspectors, any potential histamine and heavy metals (mercury, cadmium and lead) problem or any other quality problem is detected whether at the origin or the destination of the products, the foregoing situation must be immediately notified to CALVO and, as the case may be, to a local expert in order that a sample may be carried out in accordance with the standard requirements of the FDA (<http://www.fda.gov/downloads/Food/GuidanceRegulation/UCM251970.pdf>). The results obtained shall be considered to constitute final and binding results for the parties, except in the case of manifest error or fraudulent practices. In the event that the results of the sample carried out by the expert detect a histamine problem or any other quality problem, the cost of the expert report shall be assumed by the Vendor. Alternatively, the cost thereof shall be assumed by the Purchaser.

b.- The reports of the parties themselves, in relation to the existence of possible Quality defects, must be issued within the maximum period of seven (7) business days as from the date of receipt of the products at their destination. The failure of the Purchaser to issue a report does invalidate said party from subsequently filing a claim.

c.- Any final claim regarding the Quality of the products based upon a report carried out in accordance with the terms of paragraph b) hereinabove must be filed within the maximum period of thirty (30) calendar days after the date of receipt of the products at their destination and, in any event, prior to the processing of the products by the Purchaser.

d.- In the event that the products or any part thereof are rejected, the Purchaser shall not be obliged to effect any payment whatsoever for the quantities of rejected product. In the case that any payment has already been effected for the products that, subsequently, are rejected, the Vendor shall reimburse to the Purchaser said payments with interest calculated in accordance with the Interest Rate, as set out in this Contract and the Vendor shall be entitled to off-set said payments, with interest in accordance with the applicable Interest Rate, against any other amounts that the Purchaser owes to the Vendor, irrespective of whether said sums are related to the same Sale Confirmation or not.

9.- Re-sale

CALVO shall not be held liable, in any circumstances whatsoever, vis-à-vis any third party in the event that the Purchaser re-sells the Products the subject of this Contract, whether by way of simple re-sale or through the re-sale of finished or semi-finished products that have been manufactured from the Products sold by CALVO to the Purchaser. Without prejudice to the foregoing, CALVO shall provide to the Purchaser, whenever requested by the Purchase in writing, its assistance in light of any claim from any third party due to any alleged breach of quality of the

c.- The advance payment and the outstanding payment may be adjusted depending upon the quantity of the Products determined in accordance with the provisions of Clause 5. Without prejudice to the foregoing, the remaining payment may be off-set by any other amount that CALVO owes to the Purchaser for any other reason or in respect of any deficiency in the specifications, quality, quantity or the state of the Products or in relation to the rejection thereof as the result of said deficiencies.
